

FLOW LIMITER LUN 5683.5-8

Flow limiter limits the quantity of air by throttling depending on the difference of air pressures at the front of and beyond the limiter.

Technical Data

Working medium	air
Maximum working temperature with pressure 1.3 MPa before the limiter	+320 °C
Maximum working pressure before the limiter with temperature 280 °C	1.4 MPa
Max. flow of air with temperature 256 °C with outlet into the free atmosphere	540±40 kg.h ⁻¹
Air leak with pressure 0.59 MPa	5 kg.h ⁻¹
Working environment	-55 °C to +85 °C
Weight	max. 1.5 kg
