# AIRCRAFT ACCESSORY DRIVE GEARBOX LUN 5367-8

---

Aircraft Accessory Drive Gearbox is auxiliary gearbox of engine F-124 connected with engine by elastic shaft (**PTO**) **AAD** provides drive of electric generator, hydraulic pumps and air starter. **AAD** has integrated own oil system with tank, pump and filter.

## Technical Data

Max. PTO speed	18 400 rpm
Idle PTO speed	10 000 rpm
Max. power input	124 kW
Max. electric generator and hydraulic pump speed	9 200 rpm
Max. electric generator output	58 kW
Max. hydraulic pump output	33 kW
Altitude	15 250 m (50 000 ft)
Temperature range	-40° to +75° (-40° to +167°F)
Weight	45 kg (100 lb)

## Dimensions (in mm)
